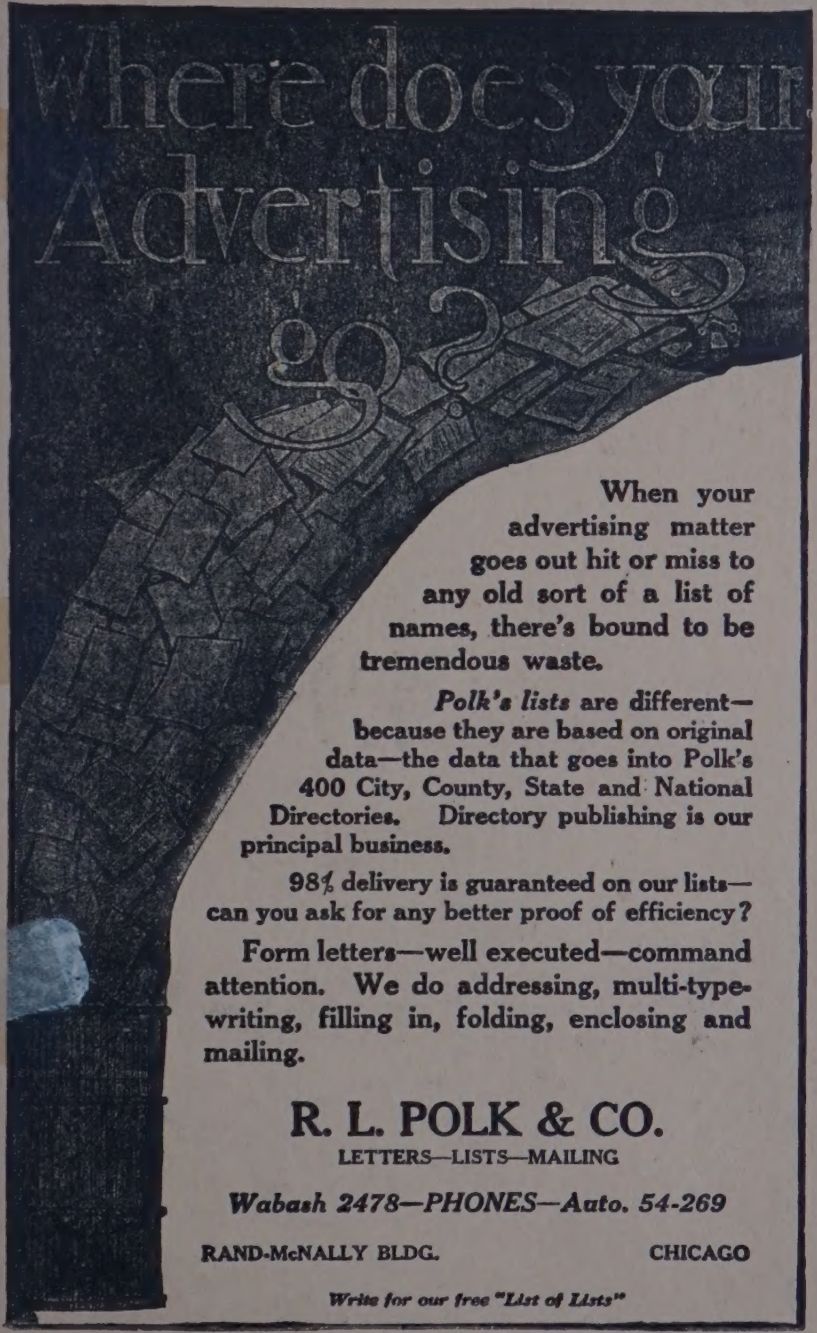
Where does your Advertising go?



When your advertising matter goes out hit or miss to any old sort of a list of names, there's bound to be tremendous waste.

Polk's lists are different—because they are based on original data—the data that goes into Polk's 400 City, County, State and National Directories. Directory publishing is our principal business.

98% delivery is guaranteed on our lists—can you ask for any better proof of efficiency?

Form letters—well executed—command attention. We do addressing, multi-typewriting, filling in, folding, enclosing and mailing.

INTRODUCTION

The volume, herewith presented, constitutes R. L. Polk & Co.'s Lima, O., City Directory for 1926, being the twenty-third edition issued by this firm. The publishers have endeavored to produce a volume combining all that is vital in the civic, social and industrial life and activity of the city and in a new and attractive dress.

A careful and thorough enumeration of the citizens and business interests of the city and a compilation of the results by trained employees assures as correct and reliable a work of this character, as is possible to be produced. The publishers have an organization solely devoted to the publication of directories and their methods and resources are unrivalled. Their imprint on the hundreds of directories published for cities throughout the United States attests the quality and reliability of their products.

In addition to the service which the publishers undertake to furnish the citizens of Lima, it maintains, at its own expense, at The Board of Commerce rooms a Directory Library containing hundreds of directories of cities throughout the entire United States for the free use, for single reference, of the business men of Lima.

POPULATION

There are 22345 individual names in this directory. Using the very conservative multiple of 2½, to allow for the women and children of the city whose names are not a part of the recorded canvass, the publishers estimate the population of Greater Lima to be

55,863

The directory has 854 pages, as contrasted with 799 pages in the last edition.

The essential departments of the Directory are set forth in the order following:

The Miscellaneous Department, pages 13 to 36, include data concerning city and county officials, public and pri-

vate institutions, banks, cemeteries, churches, hospitals and homes, libraries, schools, societies, etc.

The Buyers' Guide, covering pages 55 to 88, and printed on tinted paper, contains display advertisements of the prominent and progressive business men and concerns of Lima; they are arranged alphabetically by headings adapted to the nature of the industry followed.

The Street Guide and Directory of Householders, extends from page 89 to 188.

The Alphabetical List of Names, of citizens, business firms and corporations is embraced in pages 189 to 734.

The Classified Business Directory, is included in pages 735 to 854 and shows the various manufacturing, mercantile and profesisonal occupations, compiled under headings appropriate to the class of industry pursued. "The Directory is the common intermediary between the buyer and seller".

MORE GOODS ARE BOUGHT AND SOLD THROUGH THE CLASSIFIED BUSINESS LISTS OF THE DIRECTORY THAN ANY OTHER MEDIUM ON EARTH

Detroit Directory Library—Every Directory Office is a Branch

HOW DIRECTORY LIBRARIES ARE USED

He Wanted to Buy a Home

"Who sells ready-cut houses?" said a man to us the other day. "There is nobody listed under that heading in the Detroit City Directory, but I know there is some concern out in the State which sells them."

Reference to the Michigan State Gazetteer (State Business Directory) soon told him that the concern he wished was the North American Construction Company, of Bay City, Mich. "I will write and order what I want at once." was his parting remark.

Where one instance of this sort comes to our attention, the same things are happening over and over again wherever a City Directory is to be found.

If you will trace back new customers to find out how they found you, City Directory classified lists will receive their share of the credit.

A $50,000.00 Order

A traveling man from St. Louis called on a wholesale dry goods house in St. Paul, to sell salvage goods. They did not deal in that class of goods.

Later the firm dissolved. One partner decided to engage in that line of trade and wanted to buy a complete stock, amounting to about $50,000.00.

He called at our office and examined the St. Louis Directory to find the name of the house the agent represented. The classification "Salvage Goods" did not show it.

We, being more familiar with the classifications in a Directory, found it under "Bankrupt Stocks," much to the delight of the jobber, and a tremendous order was placed with the salvage house.

The classified section of the City Directory is the greatest buyers' guide on earth. Any one classification may secure the largest order and the best customer, any or every day in the year, and its omission may lose a large order at any time.

Every day, all over the country, thousands of people are consulting Polk's Directory Libraries. We offer you the free use of our directories for single reference.

Many Directories of various cities are bought by progressive concerns, who desire up-to-date mailing lists, classified by trades and otherwise.

Ask for a free copy of our "Directory of Directories," or for our "List of Mailing Lists."

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

¶ It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

¶ It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

¶ The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

¶ Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

Population — Lima and Suburbs 61,000

LIMA, OHIO

At the Nation's Crossroads

— A Railroad Center

— A Highway Center

— An Industrial Center

— An Agricultural Center

— A Retail Center

LIMA is at the the crossroads of both east and west bound and north and south bound traffic. Five steam railroads, five interurban lines and five highways intersect at the city, making it one of the most important transportation centers in the county.

Its factories are in the center of a vast trade area. Rapid transportation facilities are available for the exporting of the finished product and the importing of raw material. The city's advantageous location in the center of the trade area has led to the locating of a large number of important industries possessing nation-wide business.

Lima is in the center of one of the richest agricultural districts in the world. It supplies the needs of a population of 200,000 people living within a 30-mile radius.

The Lima Board of Commerce is interested in the industrial and community growth of the city. It is at the service of the city in assisting in any movement of civic nature.

Detroit Directory Library—Every Directory Office is a Branch

HOW DIRECTORY LIBRARIES ARE USED

He Wanted to Buy a Home

"Who sells ready-cut houses?" said a man to us the other day. "There is nobody listed under that heading in the Detroit City Directory, but I know there is some concern out in the State which sells them."

Reference to the Michigan State Gazetteer (State Business Directory) soon told him that the concern he wished was the North American Construction Company, of Bay City, Mich. "I will write and order what I want at once." was his parting remark.

Where one instance of this sort comes to our attention, the same things are happening over and over again wherever a City Directory is to be found.

If you will trace back new customers to find out how they found you, City Directory classified lists will receive their share of the credit.

A $50,000.00 Order

A traveling man from St. Louis called on a wholesale dry goods house in St. Paul, to sell salvage goods. They did not deal in that class of goods.

Later the firm dissolved. One partner decided to engage in that line of trade and wanted to buy a complete stock, amounting to about $50,000.00.

He called at our office and examined the St. Louis Directory to find the name of the house the agent represented. The classification "Salvage Goods" did not show it.

We, being more familiar with the classifications in a Directory, found it under "Bankrupt Stocks," much to the delight of the jobber, and a tremendous order was placed with the salvage house.

The classified section of the City Directory is the greatest buyers' guide on earth. Any one classification may secure the largest order and the best customer, any or every day in the year, and its omission may lose a large order at any time.

Every day, all over the country, thousands of people are consulting Polk's Directory Libraries. We offer you the free use of our directories for single reference.

Many Directories of various cities are bought by progressive concerns, who desire up-to-date mailing lists, classified by trades and otherwise.

Ask for a free copy of our "Directory of Directories," or for our "List of Mailing Lists."

Stability AND Permanency

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?
